I would like to order some food

Hey, Good to See you back...
Would you like to checkout
the new Italian Restaurant in
the city and try out
"Pepperoni Pizza" there?

Search

Sounds Good, Book It!

I am Glad that I am able to help you today. Have a good day!

The What, How and Why of Cognitive Services

Cortana Intelligence Suite | Overview

What is Bot?

Bots are users embedded inside a communication platform, But the users are not human but software that interact with the external world and help perform their work or day to day activities

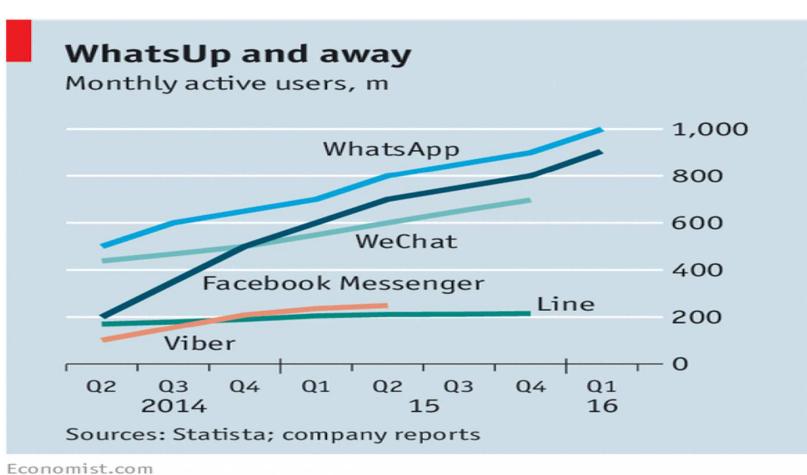

A piece of program that acts like the "First Class Citizen" and provides all support for a particular line of business

A business shift from Desktop to Web to Mobile App to Message Apps

Just another Cross Hair Syndrome Effect?

What do you think?

App Economy to Bot Economy

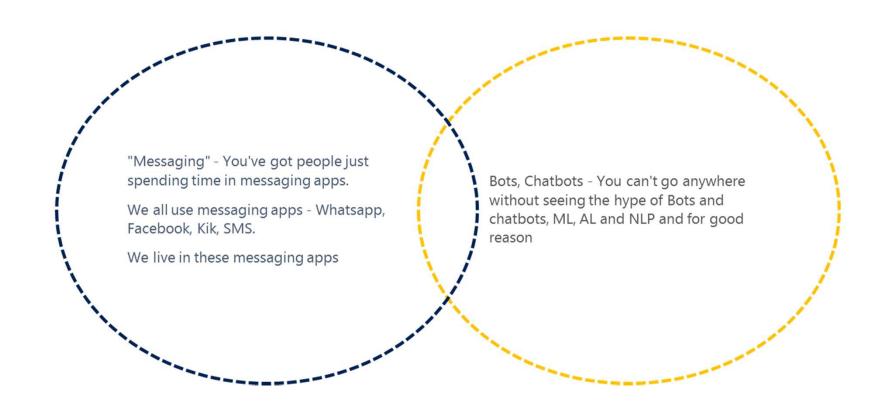

Conversational Commerce

Users are tired of Search Bars

2005: Seek Reponse

User: I ordered a book 2 days back. Not yet delivered

Care: The book has been dispatched. You should get it delivered by today.

2015: Interact

When to Replace Search Bar?

Book a cab?

Order Food?

Get the status of your Order?

Pay your Phone Bill?

Plan and Book a Holiday Package?

Resolving Issue in a services that's being provided?

Replace FAQs?

The Anatomy of Microsoft Bot

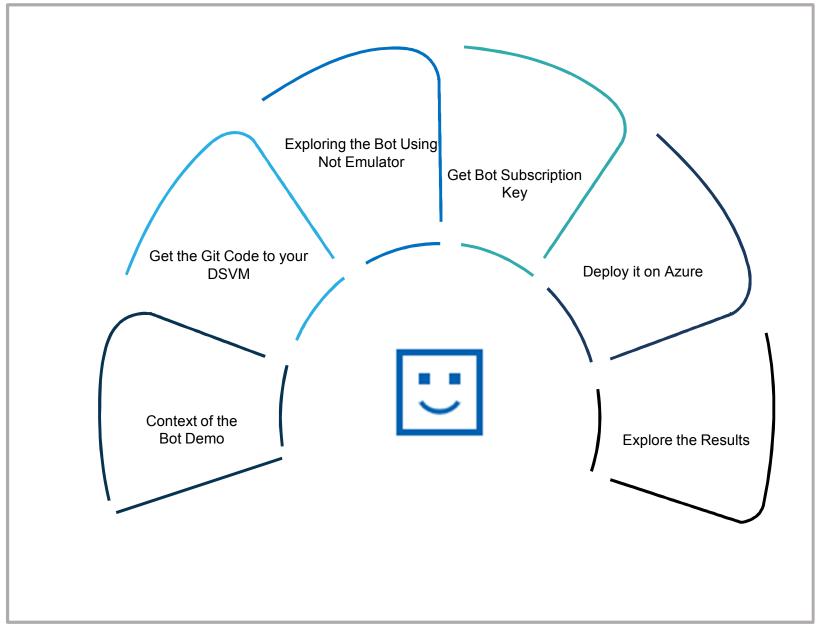

Types of Bot Service

Template	Description
Basic	Creates a bot that uses dialogs to respond to user input.
Form	Creates a bot that collects input from a user via a guided conversation that is created using FormFlow (in C#) or waterfalls (in Node.js).
Language understanding	Creates a bot that uses natural language models (LUIS) to understand user intent.
Proactive	Creates a bot that uses Azure Functions to alert users of events.
Question and Answer	Creates a bot that uses a knowledge base to answer the user's questions.

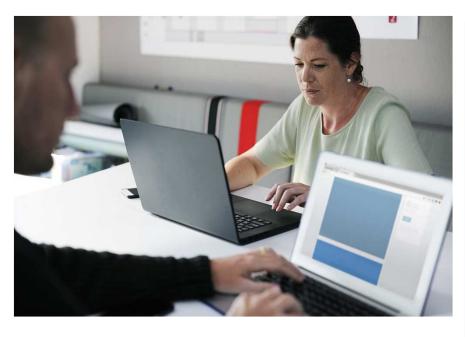

"Hello World" Bot Demo

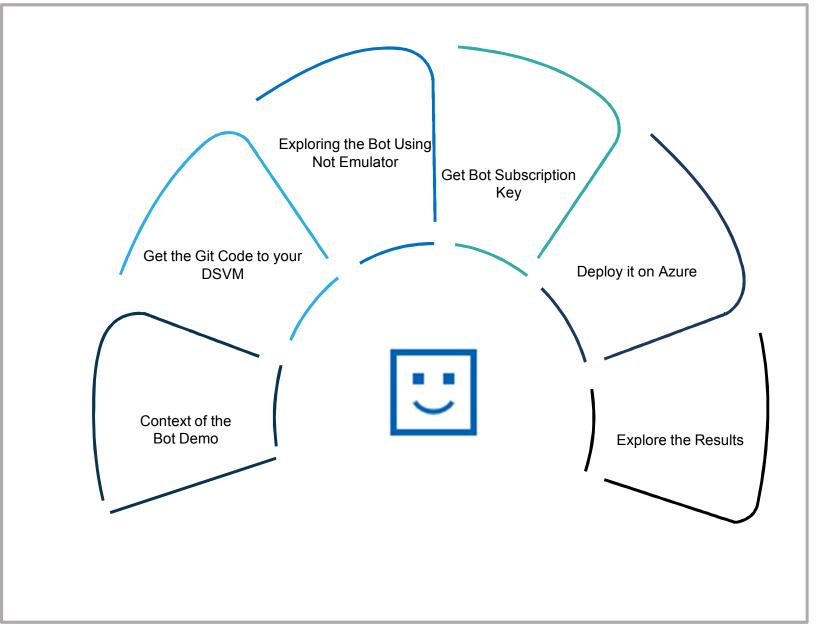

• Simple "Hello Word" Demo
